## ESTEEMED GUESTS

We are absolutely delighted to invite you to an extraordinary Art Talk event in the historic space of former Abbey St Urban. All of you, audience, presenters and artists, are the shapers and stakeholders of the art market of the future that is gaining new shape as we speak. We are excited to have the privilege to put all these creative and innovative minds together and foster a space for conversations that will propel the art space forward.

While the legacy art market shrank, NFT sales grew astronomically. In contrast to old world legacy art sales, every transaction in the secondary market earns money for artists via smart contract and allows for new ways of monetizing artistic creativity. Blockchain engineers will emerge from the Abbey's basement [www.hackarthon.com](http://www.hackarthon.com) to discuss their brand-new NFT solutions, and join the art collector crowd over dinner with delicacies prepared by the monastery master chefs. The NFT revolution will continue during the Afterparty.

**We look forward to welcoming you in St. Urban**

Gertrud & Heinz Aeschlimann
